Stone Works Ltd.*

JERUSALEM GARDENS STONE WORKS

JGSW engages in building, manufacturing, supplying, selling and marketing natural stone internationally and domestically since 1980.

The head office and factories of the company are located in Israel. Secondary manufacturing facilities are located in China. The company also operates through its overseas offices and representative offices around the world.

JGSW supplies high standard natural stone for commercial and residential projects worldwide. The wholesale and distribution departments are located at the head office in Israel.

JGSW provides one-stop shopping service and offers its customers everything from planning through fabrication, supply and project installation.

The company's professional staff includes architects, project managers, stone specialists and stone consultants.

Among **JGSW** projects are the new Plaza Hotel in New York City, Edmund Safra Synagogue in Manhattan, InterContinental Hotel in Chicago, Uriah Levy Chapel – US Naval Academy in Annapolis, Salt Lake City and Milwaukee Public Libraries, Old Mamilla Quarters, Jerusalem and more.

Please find our comprehensive product catalog and photo gallery of more projects and products on our website: www.jerusalemgardens.com

Limestone

Granite

PRODUCTION

Production of special stone products, finishes and stone elements.

Manufacturing of special projects all over the world in the highest standards.

Main factory located in Israel.

Secondary factories located in China.

World-wide management and QC by the JGSW team.

ARCHITECTURAL DEPARTMENT

JGSW maintains an In-House Architectural Department in order to service its overseas clients.

All shop drawings are prepared in-house in coordination with production, in order to achieve maximum efficiency to meet the project's requirements.

An interactive process of shop drawing preparations take place between the project's architect and JGSW architects, using industry-standard graphic software.

By having its architectural department in-house, JGSW maintains the highest degree of flexibility and response time to meet the customer's demands and needs.

Ben-Gurion International Airport, Israel

Mamilla-Alrov Quarter, Jerusalem, Israel

SLABS & TILES TRADITIONAL CHISELED

The Jerusalem Stone brand originated in the buildings of the Old City of Jerusalem. All of them were built with the local stone in a chiseled finish conveying a warm ambience and natural look which projects a lucrative look for the entire surrounding.

JGSW uses time-tested methods and modern technology to create the best finishes and offers a wide range of products for direct use in different types and designs: Tiles & Slabs, Tumbled stone, Cladding, Pavers, Special Flooring, Mosaic and more.

Mamilla-Alrov Quarter, Jerusalem, Israel

RENOVATION

JGSW restores masonry elements as well as old buildings. The company has the capacity to reproduce and renovate old construction. The work usually involves the dismantling and reassembly of the project's stone works, as necessary.
